PROFESSIONAL SUMMARY

Passionate about the IT industry and programming languages such as Python or JavaScript, I want to focus on software and web development. With over 4 years of experience in the financial accounting domain, my previous position provided a broad spectrum of accounting processes, focusing on efficiency and meeting deadlines. Working in such an environment has shaped me as a good data analyst and data operator. In my future career, I want to focus on building responsive applications, testing, and automation, and contributing to real projects, using my Python skills. Or in developing web design and functionality.

SKILLS

- **Programming languages:** Python, JavaScript
 - **Web technologies:** HTML5, CSS3
 - **Framework-web:** Django, Flask, React, Angular, Node.js, Express.js, Next.js
 - **Databases:** SQL
 - **Version control:** Git, GitHub, GitLab
 - **Data analysis tools:** Excel
 - **MS Office support:** Word, PowerPoint, Outlook
 - **Collaboration tools:** Slack, Teams, Discord
-

PROFESSIONAL EXPERIENCE

Condec Consulting SRL

September 2019 - April 2025

Customer Service Agent

- I helped streamline the process of operating accounting documents by processing databases in Excel and then importing them into accounting programs.
 - Each month, I brought the “accounting close” to a successful end without overrunning the deadline. Respectively, “annual closing” or on request, intern ones.
 - I maintained a fruitful collaboration between the company and the clients and a good relationship with the state institutions (such as ANAF).
 - I helped in the complete preparation of the archive, both physical and digital, and then made sure that it reached the client.
-

PROJECTS

Snake Game

May 2025

The classic retro game, Snake, now implemented in Python using Pygame technology | Individual developer | <https://github.com/xAndreix/Snake-Game>

Tic-Tac-Toe Game

May 2025

A simple game of "X and 0", developed with the Pygame library | Individual developer | <https://github.com/xAndreix/Tic-Tac-Toe-Game>

Ping-Pong Game

May 2025

A classic ping-pong game built in Python | Individual developer | <https://github.com/xAndreix/Ping-Pong-Game>

Tetris Game

May 2025

A Python implementation of the classic Tetris game | Individual developer | <https://github.com/xAndreix/Tetris-Game>

Shooting Asteroids Game

May 2025

A fast-paced arcade shooter built in Python with Pygame | Individual developer | <https://github.com/xAndreix/Shooting-asteroids-game>

STUDY

Master of Tourism Business Administration | *Academy of Economic Studies, Bucharest* | 2022 - 2024

- I deepened my knowledge in the field of tourism, with a strong focus on strategic and operational management of tourist destinations. I developed advanced skills in decision process optimization and business process modeling.

Bachelor's Degrees in Business Administration in Commerce, Tourism, Services, Marketing, and Quality Management | *Academy of Economic Studies, Bucharest* | 2019 - 2022

- I developed solid skills in marketing, trade, and service economics. I acquired advanced knowledge in consumer safety, commodity logistics, and quality management. I explored modern issues such as e-commerce, information technology applied to business, and geopolitics.
-

LANGUAGE SKILLS

- **Romanian:** Nativ
 - **English:** Intermediate
 - Listening comprehension - B1
 - Reading comprehension - B1
 - Producing written messages - B1
 - Producing oral messages - B2
 - Oral interaction - B2
-
